San Diego, August 24, 2023 – Petco Health and Wellness Company, Inc. (Nasdaq: WOOF), a complete partner in pet health and wellness, today announced its second quarter 2023 financial results.

In the second quarter of 2023, Petco delivered net revenue of \$1.53 billion, up 3.4 percent versus prior year, driven by strength in the company’s consumables business, up 6.8 percent versus prior year, and services and other business, up 30.6 percent versus prior year. Second quarter revenue growth was partially offset by the company’s supplies and companion animal business, down 9.4 percent versus prior year. Net loss was \$14.6 million or \$(0.05) per share, driven in part by a \$0.04 per share increase in interest expense year-over-year, compared to net income of \$13.5 million or \$0.05 per share in the prior year. Adjusted Net Income¹ was \$16.3 million or \$0.06 per share, compared to \$43.5 million or \$0.16 per share in the prior year. Adjusted EBITDA¹ was \$112.6 million compared to \$133.5 million in the prior year.

“We continue to focus on execution through an uncertain environment, delivering our 19th consecutive quarter of comp sales growth, with ongoing strength in consumables and services, particularly in vet,” **said Petco CEO Ron Coughlin**. “With discretionary spending continuing to be pressured, we’re taking numerous strategic actions to strengthen our business, including initiatives to

unlock a targeted \$150 million in cost savings and productivity enhancements by the end of fiscal 2025. These actions, combined with the enduring competitive advantages of our differentiated offering, will position us even better to deliver sustainable and profitable growth for the long term.”

“In Q2, we delivered solid top line results and strong free cash flow,” said **Petco CFO Brian LaRose**. “That said, the shift in consumer spending and pressures on our discretionary business mean we’re revising our guidance accordingly. Looking ahead, we remain focused on debt paydown and cash flow, both of which will be supported by our productivity initiatives in addition to tightly controlled expense management.”

In the second quarter of 2023, Petco paid down \$25 million in principal on its term loan. In August, the company further paid down an additional \$15 million in principal on its term loan for a total of \$75 million in principal payments year-to-date. The company continues to target a total of \$100 million in principal payments for fiscal 2023 and remains committed to strengthening its balance sheet through de-levering.

The company also initiated a cost action plan in the quarter and estimates annualized gross run rate cost savings of \$150 million by the end of fiscal 2025, from merchandise, supply chain, and general G&A categories. In year one, the company expects to achieve \$40 million in savings. In Q2 2023, the company recorded \$6 million in headcount reduction-related charges related to the cost action plan.

Fiscal 2023 Guidance:

The company is updating its fiscal 2023 guidance for Adjusted EBITDA, Adjusted EPS and Capital Expenditures and now expects:

Metric*	2023 Guidance
Net Revenue	\$6.150 billion to \$6.275 billion
Adjusted EBITDA	\$460 million to \$480 million
Adjusted EPS	\$0.24 to \$0.30
Capital Expenditures	\$215 million to \$225 million

*Assumptions in the guidance include that economic conditions, currency rates and the tax and regulatory landscape remain generally consistent. Adjusted EPS guidance assumes approximately \$145 to \$155 million of interest expense, an estimated \$43 to \$53 million increase in interest expense year-over-year, a 26 percent tax rate, and a 269 million weighted average diluted share count. The Company estimates that the increase in interest expense will impact Adjusted EPS by approximately \$0.12 to \$0.15 per share. Furthermore, Fiscal 2023 will be a 53-week year, leading to an incremental week of operations. Adjusted EBITDA and Adjusted EPS are non-GAAP financial measures and have not been reconciled to the most comparable GAAP outlook because it is not possible to do so without unreasonable efforts due to the uncertainty and potential variability of reconciling items, which are dependent on future events and often outside of management’s control and which could be significant. Because such items cannot be reasonably predicted with the level of precision required, we are unable to provide outlook for the comparable GAAP measures. Forward-looking estimates of Adjusted EBITDA and Adjusted EPS are made in a manner consistent with the relevant definitions and assumptions noted herein and in our filings with the Securities and Exchange Commission.

NON-GAAP FINANCIAL MEASURES

The following information provides definitions and reconciliations of the non-GAAP financial measures presented in this earnings release to the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles (GAAP). The company has provided this non-GAAP financial information, which is not calculated or presented in accordance with GAAP, as information supplemental and in addition to the financial measures presented in this earnings release that are calculated and presented in accordance with GAAP. Such non-GAAP financial measures should not be considered superior to, as a substitute for or alternative to, and should be considered in conjunction with, the GAAP financial measures presented in this earnings release. The non-GAAP financial measures in this earnings release may differ from similarly titled measures used by other companies.

The tables below reflect the calculation of Adjusted EBITDA (include Trailing Twelve Month Adjusted EBITDA), Adjusted Net Income, Adjusted EPS, and Free Cash Flow, for the thirteen weeks ended July 29, 2023, compared to the thirteen weeks ended July 30, 2022 as well as the twelve-month period ended January 28, 2023.

Adjusted EBITDA and Trailing Twelve Month Adjusted EBITDA

Adjusted EBITDA, including Trailing Twelve Month Adjusted EBITDA, is considered a non-GAAP financial measure under the Securities and Exchange Commission's (SEC) rules because it excludes certain amounts included in net income calculated in accordance with GAAP. Management believes that Adjusted EBITDA is a meaningful measure to share with investors because it facilitates comparison of the current period performance with that of the comparable prior period. In addition, Adjusted EBITDA affords investors a view of what management considers to be Petco's core operating performance as well as the ability to make a more informed assessment of such operating performance as compared with that of the prior period. Please see the company's Annual Report on Form 10-K for the fiscal year ended January 28, 2023 filed with the SEC on March 28, 2023 for additional information on Adjusted EBITDA.
